Dear Kevin,

I am proud to offer you my endorsement for State Senate in the 25th S.D. I am confident that your background, both professionally and personally, makes you uniquely qualified to serve the citizens of the 25th S.D.

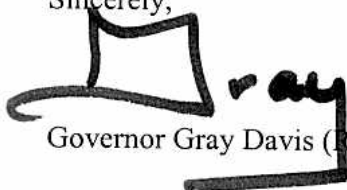

A native of Los Angeles and having grown-up in the district, you understand the importance of improving the community, strengthening education, and protecting our environment.

Your integrity, judgment, and work ethic are unparalleled, which is why I was honored to name you the Director of my Inland Empire Office. Among many notable accomplishments you achieved in that post, I specifically recall your outstanding performance and devotion to the people effected during the wildfires of 2003. Your tireless efforts to ensure the evacuees were given resources and shelter speaks not only to your compassion, but also to your dedication.

Kevin, your passion for helping others shines through in all that you do. I am confident that your candidacy will offer voters a real opportunity to select a candidate who will fight for education, our environment, and the community at large.

I wish you great success.

Sincerely,

Governor Gray Davis (Ret.)
